

Breeding for resilience in the Netherlands and Flanders

Niek Meijer | 20 May 2024

Resilience

How can the overall health of cows be improved?

Based on PhD of Marieke Poppe at Wageningen University (2022)

News

Milk yield resilience indicators and sensor features for a more diverse and sustainable dairy production landscape

Milking robot helps breed 'trouble-free' cows

22 January 2020 | by FarmingUK Team | Dairy, Machinery, News

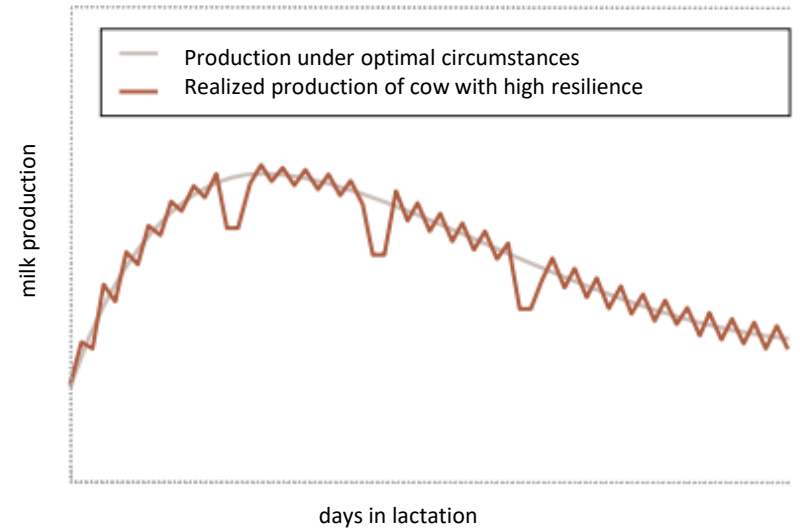

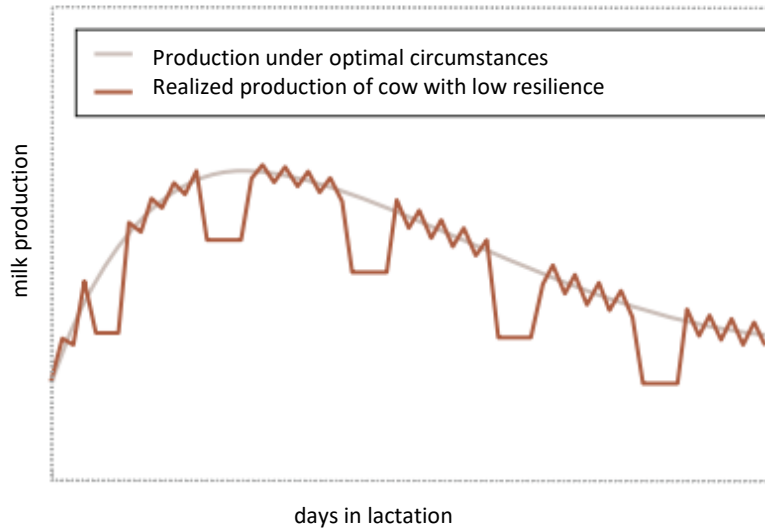

August 29, 2023

Resilience

*The ability to be minimally affected by disturbances
AND / OR
to recover quickly when affected*
Colditz & Hine, 2016

Resilience

How to measure resilience?

Dataset with information with individual milk records since 2010 (> 5 billion)

Automatic milk systems (AMS) and milking parlour with electronic milk devices

Calculate daily milk yield

Predict optimal production curve for each cow, each lactation

Calculate for each cow how much the cow has produces less / more than predicted

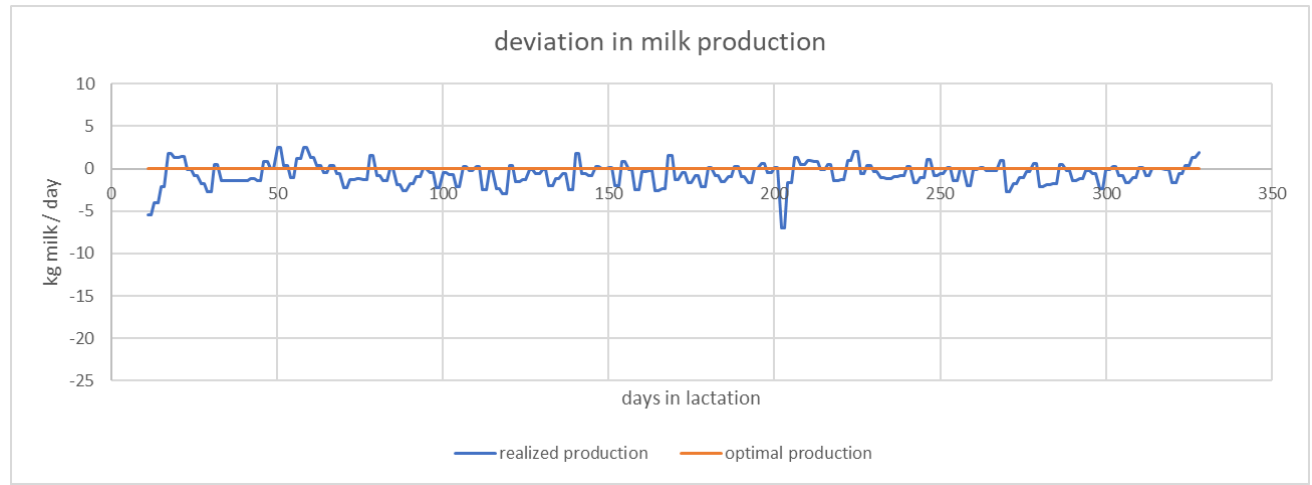

large difference → low resilience

low difference → high resilience

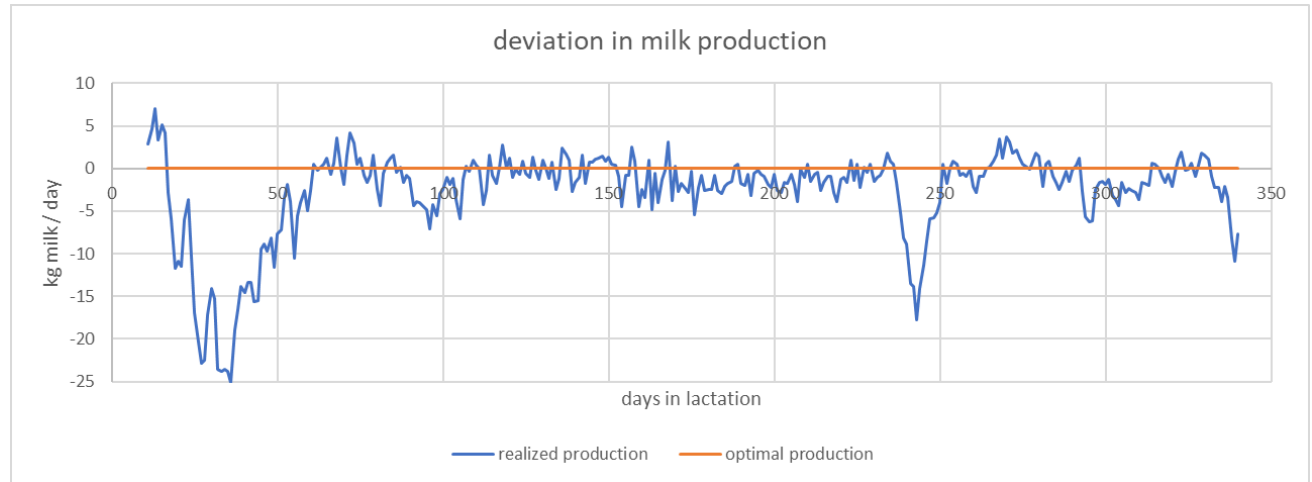

Example

high resilience

low resilience

Resilience – trait definition

Recovery

the time it takes to recover from a disturbance

Stability

the amount of disturbances that were met during a lactation

Recovery

Autocorrelation between deviation from the current day and previous day over the whole lactation

Correlation → observations between -1.0 and +1.0

Low correlation is desirable

| parity | mean | sd | min | max |
|--------|------|------|-------|------|
| 1 | 0.56 | 0.20 | -0.21 | 0.98 |
| 2 | 0.56 | 0.19 | -0.26 | 0.99 |
| 3+ | 0.56 | 0.19 | -0.32 | 0.98 |

Stability

Natural logarithm of the variance based on all deviations during a lactation

Lower variance is desirable

| parity | mean | sd | min | max |
|--------|------|------|-------|------|
| 1 | 1.57 | 0.67 | -1.01 | 3.95 |
| 2 | 1.85 | 0.69 | -0.74 | 4.30 |
| 3+ | 2.06 | 0.70 | -0.98 | 4.64 |

Traits

2 characteristics

- Recovery
- Stability

3 parities

- Parity 1
- Parity 2
- Parity 3+

2 milking systems

- Automatic milking system (AMS)
- Electronic milking measurement (EMM)

12 traits in total

Traits based on AMS are the breeding goal trait

Genetic parameters - heritability

| | AMS | EMM |
|--------------|------|------|
| Recovery 1 | 0.07 | 0.04 |
| Recovery 2 | 0.04 | 0.03 |
| Recovery 3+ | 0.04 | 0.02 |
| | | |
| Stability 1 | 0.09 | 0.05 |
| Stability 2 | 0.06 | 0.05 |
| Stability 3+ | 0.09 | 0.04 |

AMS higher heritability

Stability higher heritability

Genetic parameters – genetic correlations

AMS vs EMM

| | Recovery | Stability |
|-----------|----------|-----------|
| Parity 1 | 0.76 | 0.90 |
| Parity 2 | 0.63 | 0.88 |
| Parity 3+ | 0.35 | 0.91 |

Between parities

| | Recovery | Stability |
|---------------|----------|-----------|
| Parity 1 – 2 | 0.98 | 0.98 |
| Parity 1 – 3+ | 0.84 | 0.91 |
| Parity 2 – 3+ | 1.00 | 0.98 |

Genetic correlations with other traits

| | Recovery | Stability |
|------------------------|----------|-----------|
| Milk production | -0.14 | -0.36 |
| Fertility | 0.08 | 0.31 |
| Ketosis | 0.16 | 0.49 |
| Longevity | -0.06 | 0.33 |
| Metabolic disorders | 0.14 | 0.48 |
| Claw health | -0.03 | 0.14 |
| Reproduction disorders | 0.06 | 0.15 |
| Udder health | 0.22 | 0.50 |

55% of the variance in resilience can be explained by other health traits and longevity

45% not explained → added value

Resilience on farm

Netherlands and Flanders:

- mean EBV = 100
- sd. EBV = 4

| | EBV 92 | EBV 100 | EBV 108 |
|------------------------------------|-----------|-----------|----------|
| Recovery – time to recover | 14.0 days | 10.9 days | 7.0 days |
| Stability – number of disturbances | 4.8 | 3.8 | 2.4 |

Publication

1. Total breeding value recovery (*recovery*)
2. Total breeding value stability (*stability*)
3. Index resilience (*resilience*)

Galileo
Highest bull for resilience

Breeding for resilience

Healthy cows (positive correlations with health traits) 

Increased longevity (positive correlations with longevity) 

Captures health that is not in the current health traits 

Easy manageable cows 

Animal welfare 

Introduced since April 2024
